Fortify Positions

(Maximum one use per turn for the entire team.)

Tempt Fate

Supply Drop

5 RP

Add a new objective to No Man's Land, 6" from board edge, 6" from all others.
(Maximum 6 objective markers in play at once.)

Advanced Tactics

5 RP

Remove one secondary and reveal a new one.
(Maximum one use per turn for the whole team.)

Field Promotion

6 RP

Destroy a unit you own that is not in combat.
Roll 2d6+1 and select a unit of your choice

from the corresponding bracket of your army's spawning table. You may pick a unit of any model count to upgrade into, but you may not place more models in the new unit than were in the destroyed unit. Set up that unit on the battlefield as close as possible to the original unit's position. The unit may not be set up within engagement range of any enemy models.

Patched Up 6 RP

Return a unit you own that is not in combat to its starting strength, including any lost attached characters.

Reinforcements Arrive 10 RP

Roll 2d6 and select a unit of your choice from the corresponding bracket of your army's spawning table to add to your Reserves. (They may enter this turn.) If no unit within that spawning bracket is available you may instead select two units of the next lower bracket instead.

A change of Plans 10 RP

Draw up to 2 cards from the Secret Objective deck. Choose one of your secret objectives. Place all but the chosen Secret Objective card back onto the Secret Objective deck face down, then shuffle the deck.
